Model and
diagram by
Sanja S.
Čuček

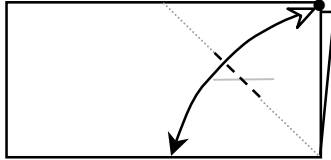

1.
Fold a square
into half.

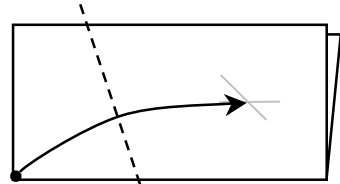

2.
Precrease lightly. Crease
firmly a short length on
the right.

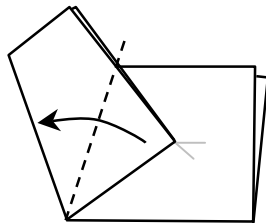

3.
Precrease lightly.
Crease firmly a short
length crossing the
previous mark.

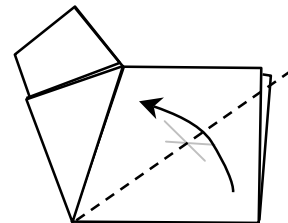

4.
Crease through both layers.
The marked point should
touch the intersected
creases.

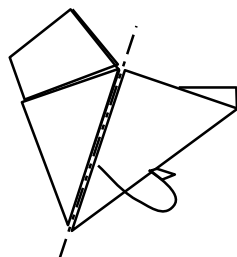

5.
Crease through both
layers. The raw edges
should match.

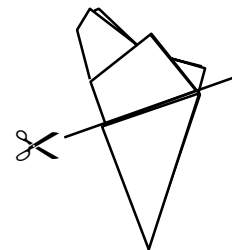

6.
Fold through the
marked intersection.

7.
Fold right layers
behind.

8.
Cut through all layers.
The resulting form is a
pentagon.

10.
Pcrease.

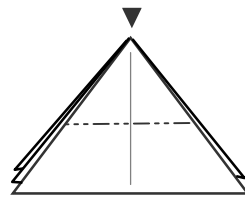

11.
Form a waterbomb base.

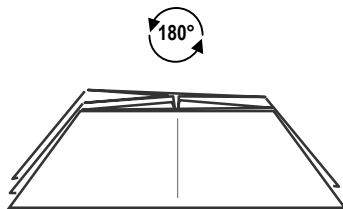

12.
Pcrease through all layers.

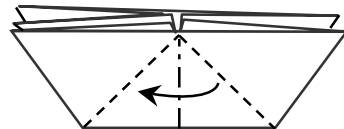

13.
Open sink.

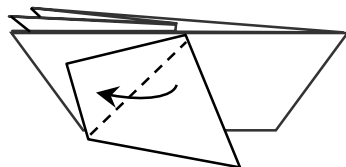

14.
Rotate 180°

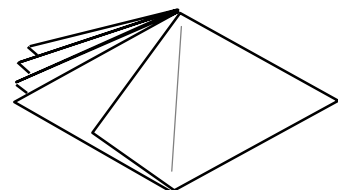

15.
Fold to the left.

16.
Repeat on the remaining four flaps.

17.
The model now has 5 inner flaps and 5 outer flaps

18.
Fold the raw edge of the
inner flap to the central
line

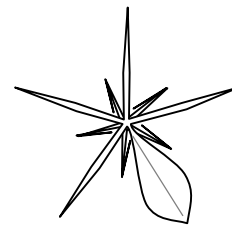

19.
Repeat on the remaining
four flaps

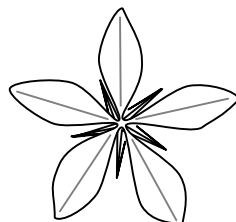

20.
Top view

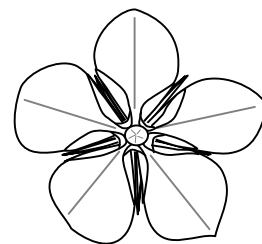

21.
Open the long flaps
and form the petals

22.
Pull the petals slightly
apart to form the centre.

Finished cherry
flower.

1. Precrease diagonally.

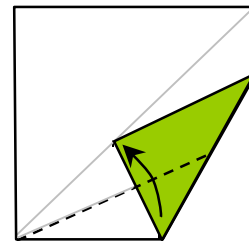

2. Precrease lightly.

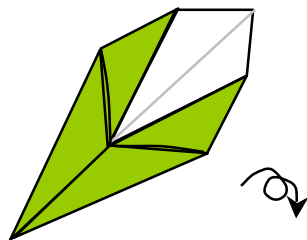

3. The lower raw edge of the folded triangle is perpendicular to the last crease.

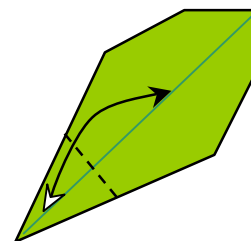

4. Refold using the previous crease.

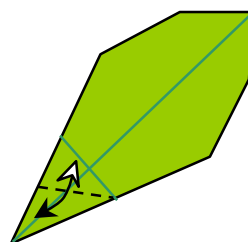

5. Repeat on the left side and turn the model.

6. The crease should be perpendicular to the diagonal.

7. Precrease the angle in half.

8.
Precrease the
other angle in
half.

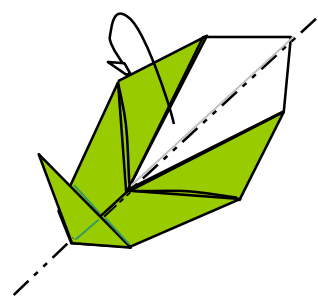

9.
Turn the
model.

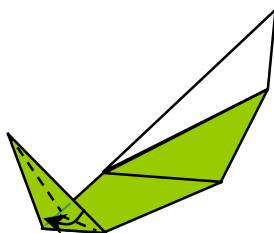

10.
Rabbit ear the
stalk.

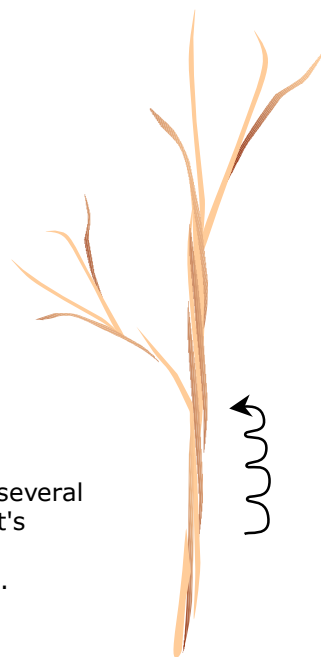

11.
Fold lightly the
diagonal of the
leaf blade .

12.
For a thinner stalk,
rabbit ear both sides.
The stalk will not lie
flat.

13.
Wind together several
strings of florist's
paper wire in
different lengths.

14.
Glue the leaves.

15.
Take short and narrow strips of the flower paper.
Make straws by winding them.

16.
Wind the straws in a cluster. You can either glue or just attach flowers on them, if you wish them to fall off occasionally.

17.
Wind the blossom clusters in the twig.
You may wish to secure it with glue.

Finished cherry blossom.
