Modification by B. Corum, May 2019

I hope these diagrams are helpful.

I removed the black background and restored a few markings. I also changed how the tusks appear in the final steps. Here are my attempt at the original (left) and my version (right). I included my Lucky Bicentennial Quarter for perspective. Put your own 3-D details in, be creative & have fun! I did some reverse folds on the tusks so the outside edge was a fold and not edges.
